

OLD FAT & MAD

Sometime actor, director, singer and filmmaker throws all his artistic toys into the pram of One Man Showmanship to create a surprisingly funny, at times tragic, poignant and powerful theatre piece celebrating almost 70 years of the NHS and mourning the political and corporate beasts that are currently attacking it.

Since 2014 Steven has found himself embedded in the world of NHS Saving and is now a seasoned grassroots campaigner who works with NHS staff, politicians and fellow activists. Despite the corruption, the hospital closures, the shrinking of our world-leading health service he retains his sense of humour and uses his seasoned theatrical skills to inspire others to keep on keeping on...

OLD FAT & MAD is a darkly funny and tragic show offering unique insights into the state of the nation as it stands in 2018. Anecdotes, true accounts of life behind the blue logo, songs from the world of jazz, rock and musical theatre enable the audience to see behind the veil of secrecy that masks the real Tragedy of the NHS.

Part comedy stand up,
part music concert,
part public meeting in a bingo hall

OLD FAT & MAD will both amuse and alarm and is designed to create a reaction from its audience.

If you're worried about party politics -DON'T BE! This is a balanced show.
This show doesn't have a good word to say about any of them!
